## *PHILCAMSAT donates books to Senior High School Partners*

The Philippine Center for Advanced Maritime Simulation and Training, Inc. (PHILCAMSAT) donated books to their Senior High School partners on October 13, 2022. Principal Dr. Modesto G. Villarín received the books for Ismael Mathay Sr. High School in Quezon City while the books for Santiago Syjuco Memorial Integrated Secondary School in Malabon City were received by their Principal, Ms. Leah Vidal. The maritime books will be used by the Maritime Senior High School students and faculty members of both schools.

Both Principals from the two schools expressed their gratitude for the kind gesture and recognized the importance of collaboration among schools and industry leaders. “Our learners can now have easier access to maritime publications and get updated with the recent developments in the maritime field”, says Ms. Leah Vidal.

Ms. Jessa Mandagan, Research and Development Head of PHILCAMSAT is ecstatic with this project. “It is our honor to be a part of the student’s journey as they fulfill their dreams to become a Global Maritime Professional,” she said.

OCTOBER 14, 2022

The Education and Training Unit of PHILCAMSAT, represented by Engr. Marianne Camille Pastolero also used this opportunity to discuss various topics which aim to strengthen the partnership between the two Senior High School Partners.

Both faculty and students were given a chance to know more about PTC's programs for maritime students and the various opportunities at PTC that await future global maritime professionals. Overall, it was a fruitful event that further inspires the students to work harder for their future careers at sea.
